Dear Ms Scott

RE: Christmas Fuel Deliveries to Sleaford Renewable Energy Plant

I would like to inform you of a temporary change to the delivery arrangements at Sleaford Renewable Energy Plant over the Christmas holidays.

Given the planning restrictions on delivery times at the plant, the combination of weekend days and public holidays over Christmas would leave the power station without deliveries from 14:00 on Saturday 24 December to 07:00 on Wednesday 28 December. There is insufficient storage available on the site to keep the plant running at full load over this extended period so North Kesteven District Council has permitted us to take deliveries from 08:00 to 14:00 on Tuesday, December 27th.

We had considered applying for a formal change to the planning condition related to deliveries at Christmas in order to offer more flexibility. However, as this is a problem that only comes about two years in every seven (the years when Christmas Day falls on either a Sunday or a Monday) North Kesteven District Council agreed that it would be best for all parties to offer a short additional delivery window in only those years where this is strictly necessary rather than seek a more permanent change.

This change will allow the plant to run at full load throughout the Christmas period. It will maximise the renewable energy generated by the plant whilst causing as little local disruption as possible (routing restrictions will apply as normal).

Our deliveries over the Christmas and New Year Period are therefore as shown on the following page.

I wish you Merry Christmas and a prosperous and happy 2017.

Yours sincerely
